Volunteer User Manual

1. Volunteer Registration

- Volunteers provide their email to the Student Leader.
- Student Leader adds the volunteer email to the system.
- Volunteer registers using the same email.

What to do on this page

- Enter personal details.
- Upload passport size photo.
- Upload ID card

Flow

The volunteer registration process begins when a student interested in joining NSS Volunteer provides their email address to the Student Leader. The Student Leader adds the volunteer's email to the system, making the volunteer eligible for registration. Once the email has been added, the volunteer can register and create an account using the same email address. During registration, the volunteer must provide the required personal information and upload the necessary documents. After successful submission, the registration request is forwarded to the College Programme Officer (PO) for verification and approval.

2. Volunteer Approval

- College PO reviews volunteer details.
- College PO approves the volunteer.
- Wait for approval from College PO.

Flow

After the volunteer completes the registration process, the submitted details are sent to the College Programme Officer (PO) for verification. The College PO reviews the volunteer's personal information and uploaded documents to ensure that all details are accurate and valid. Once the verification process is completed successfully, the College PO approves the registration. After approval, the volunteer receives access to the NSS Connect and can log in using their registered credentials to access the dashboard and participate in the NSS Event.

3. Login

- Volunteer logs in after approval.

What to do on this page

- Enter registered email.
- Enter password.

Flow

Once the volunteer's registration has been approved by the College Programme Officer (PO), the volunteer can access the NSS Connect by logging in with their registered credentials. After entering the correct email address and password, the system verifies the credentials and grants access to the volunteer dashboard. From the dashboard, the volunteer can view upcoming events, attendance records, credited hours, special camps

4. Dashboard

- Volunteer enters the dashboard after login.

What to do on this page

- View upcoming events.
- View attendance details.
- View recently attended events.

Flow

After successfully logging in, the volunteer is redirected to the Dashboard, which serves as the central page for accessing all NSS-related activities and information. The dashboard provides a quick overview of the volunteer's participation, attendance records, and upcoming events. From this page, volunteers can easily navigate to different sections of the system and stay updated on their NSS activities. The dashboard helps volunteers track their involvement and ensures they do not miss any important events.

5. Upcoming Events

- Volunteer selects an event from the event list.

What to do on this page

- View event details.
- Check event date and time.
- Mark participation.

Flow

The Upcoming Events section displays all NSS events that are scheduled by the College Programme Officer (PO). Volunteers can browse through the list of upcoming activities and select any event to view its complete details. This section helps volunteers stay informed about future NSS programs and ensures that they can participate in activities relevant to them. By selecting an event, volunteers can review important information and mark their participation, which adds their name to the event attendance list.

6. Event Participation

- Volunteer marks participation in the selected event.
- Volunteer name is added to the attendance list.

What to do on this page

- Click the participation button.
- Confirm participation.

Flow

Once a volunteer selects an event from the Upcoming Events section, they can indicate their willingness to participate by marking their participation. After the participation request is successfully submitted, the volunteer's name is automatically added to the attendance list for that event. This allows the College Programme Officer (PO) and Student Leaders to track the expected participants and manage event attendance efficiently. Volunteers should ensure that they mark their participation before the event begins to be considered for attendance and credited hours.

7. Attendance Overview

- Volunteer opens the attendance section.

What to do on this page

- View total credited hours.
- View breakdown of attended events.

Flow

The Attendance Overview section allows volunteers to track their participation in NSS activities and monitor the hours they have earned through various events. When a volunteer opens this section, the system displays a summary of all attendance records along with the total

credited hours. Volunteers can review their attendance history, verify participation in past events

8. Special Camp

- College PO creates a special camp.
- Volunteers access special camp details.

What to do on this page

- View undertaking form.
- Generate PDF undertaking form.
- Download undertaking form.

Flow

When a College Programme Officer (PO) creates a Special Camp, the details of the camp become available to eligible volunteers through the NSS Connect. Volunteers can access the Special Camp section to view information about the camp, including its objectives, duration, location, and participation requirements. Before participating, volunteers may be required to submit an undertaking form signed by both the student and their parent or guardian. The system provides an option to generate and download the undertaking form in PDF format. Volunteers can then complete the required formalities and prepare for participation in the Special Camp.

Student Leader User Manual

1. Student Leader Registration

- Student Leader provides their email to the College PO.
- College PO adds the Student Leader email to the system.
- Student Leader registers using the same email.

What to do on this page

- Enter personal details.
- Upload passport size photo.
- Upload ID card.

Flow

The Student Leader registration process begins when a student selected for the Student Leader role provides their email address to the College Programme Officer (PO). The College PO adds the Student Leader's email to the system, making them eligible for registration. Once the email has been added, the Student Leader can register and create an account using the same email address. During registration, the Student Leader is required to provide personal information and upload the necessary documents for verification. After successful submission, the registration request is reviewed and approved by the College PO. Once approved, the Student Leader can log in to the NSS connect.

2. Student Leader Approval

- College PO reviews Student Leader details.
- College PO approves the Student Leader.

What to do on this page

- Wait for approval from College PO.

Flow

After the Student Leader completes the registration process, the submitted details are forwarded to the College Programme Officer (PO) for verification. The College PO reviews the Student Leader's personal information and uploaded documents to ensure that all details are accurate and valid. Once the verification process is successfully completed, the College PO approves the registration. After approval, the Student Leader gains access to the NSS Connect and can

log in using their registered credentials to manage volunteers, participate in events, track attendance, and perform Student Leader responsibilities.

3. Login

- Student Leader logs in after approval.

What to do on this page

- Enter a registered email.
- Enter password.

Flow

Once the Student Leader's registration has been approved by the College Programme Officer (PO), they can access the NSS Connect by logging in with their registered credentials. After entering the correct email address and password, the system verifies the credentials and redirects the Student Leader to the dashboard. From the dashboard, the Student Leader can manage volunteer registrations, add volunteer emails, participate in events, view attendance records, and access other NSS-related features assigned to their role.

4. Dashboard

- Student Leader enters the dashboard after login.

What to do on this page

- View upcoming events.
- View attendance details.
- View recently attended events.

Flow

After successfully logging in, the Student Leader is redirected to the Dashboard, which serves as the central hub for managing NSS activities and volunteer-related tasks. The dashboard provides a quick overview of upcoming events, attendance records, and recently attended activities. From this page, the Student Leader can easily navigate to different sections of the Connect, monitor volunteer participation, and stay informed about ongoing and upcoming NSS programs. The dashboard helps the Student Leader efficiently manage responsibilities and track NSS activities within the college.

5. Volunteer Management

- Student Leader adds volunteer emails to the system.
- Volunteers register using the added email.

What to do on this page

- Add volunteer email.
- View Email Added volunteer list.

Flow

The Volunteer Management section allows the Student Leader to manage volunteer registrations within the college. Before a volunteer can register on the NSS Connect, the Student Leader must add the volunteer's email address to the system. Once the email is added, the volunteer becomes eligible to register using that email address. This section helps the Student Leader maintain a record of all volunteers who have been invited to join the NSS unit and ensures that only authorized students can complete the registration process.

6. Upcoming Events

- Student Leader selects an event from the event list.

What to do on this page

- View event details.
- Check event date and time.
- Mark volunteer attendance.

Flow

The Upcoming Events section displays all NSS events scheduled by the College Programme Officer (PO). Student Leaders can browse the list of upcoming activities and select an event to view its details. This section enables Student Leaders to prepare for upcoming programs and manage volunteer participation effectively. For each event, Student Leaders are responsible for monitoring volunteer involvement and marking attendance after the event is conducted. This helps maintain accurate attendance records for volunteers participating in NSS activities.

7. Event Participation

- Student Leader participates in the event.
- Student Leader name is automatically added to the attendance list for every event.

What to do on this page

- View participation status.
- Mark volunteer attendance.

Flow

Student Leaders are considered active participants in NSS activities and events organized by the college. Whenever an event is created and conducted, the Student Leader's name is automatically included in the attendance list for that event. In addition to participating in the event, the Student Leader plays an important role in managing volunteer attendance. After the event is completed, the Student Leader reviews the list of participating volunteers and marks their attendance in the system. The submitted attendance is then forwarded to the College Programme Officer (PO) for verification and final approval.

8. Attendance Overview

- Student Leader opens attendance section.

What to do on this page

- View total credited hours.
- View breakdown of attended events.

Flow

The Attendance Overview section allows the Student Leader to monitor their own NSS participation and attendance records. When the Student Leader opens this section, the system displays a summary of all attended events along with the total credited NSS hours earned. This section helps the Student Leader track their involvement in NSS activities and review attendance records that have been verified and finalized by the College Programme Officer (PO). It provides a complete history of participation across various NSS programs and events.

9. Special Camp

- College PO creates special camp.
- Student Leader accesses special camp details.

What to do on this page

- View undertaking form.
- Generate PDF undertaking form.
- Download undertaking form.
- View special camp attendance list.

Flow

When a College Programme Officer (PO) creates a Special Camp, the details become available to Student Leaders through the NSS Connect. Student Leaders can access the Special Camp section to view information about the camp, including its schedule, objectives, location, and participation requirements. The system also provides an undertaking form that may be required for participation. Student Leaders can generate and download the undertaking form in PDF format for completion and submission.

District Coordinator User Manual

1. Appointment & Login Credentials

- Director appoints a District Coordinator.
- After appointment, login credentials are sent to the coordinator's registered email address.

What to do on this page

- Check the registered email.
- Retrieve the email ID and temporary password.
- Log in to the system using the provided credentials.

Flow

The District Coordinator account is appointed by the Director through the NSS Connect. Once the appointment is completed, the system automatically generates login credentials and sends them to the coordinator's registered email address. The District Coordinator can then use the provided email ID and temporary password to access the NSS Connect. After successfully logging in, the coordinator gains access to the District Coordinator dashboard.

2. Dashboard

- District Coordinator logs in to the system.
- District Coordinator is redirected to the Dashboard.

What to do on this page

- View total colleges under the district.
- View total Programme Officers (POs).

Flow

After successfully logging into the NSS Connect, the District Coordinator is redirected to the Dashboard. The dashboard provides a quick overview of the information related to colleges and Programme Officers (POs) under the Dashboard.. This section helps the District Coordinator track district-level NSS operations, monitor institutional participation, and stay informed about the overall status of NSS activities being conducted across the district.

3. Jurisdiction Monitoring

- District Coordinator opens the Jurisdiction Monitoring section.

What to do on this page

- Monitor activities across colleges in the district.

Flow

The Jurisdiction Monitoring section enables the District Coordinator to oversee NSS activities being conducted across all colleges within the assigned district. This section provides visibility into NSS events, Special Camps, volunteer participation, and other initiatives organized by colleges under the coordinator's jurisdiction. The District Coordinator can view all events conducted by colleges within the district, monitor Special Camps organized by different institutions, and track overall NSS engagement across the district.

4. Past Events

- District Coordinator opens the Past Events section.

What to do on this page

- View previously conducted events.
- Review event details.

Flow

The Past Events section allows the District Coordinator to view and review NSS events that have already been completed within the assigned district. This section provides access to historical event records done by colleges and Programme Officers (POs). By reviewing past events, the District Coordinator can monitor the type of activities conducted and evaluate the overall performance of NSS programs across the district. The section serves as a valuable resource for tracking completed activities and maintaining records of NSS Activities.

5. Colleges in District

- District Coordinator opens the Colleges in District section.

What to do on this page

- View all colleges assigned to the district.
- Review college information.

Flow

The Colleges in District section provides the District Coordinator with a complete list of all colleges assigned to their jurisdiction. This section helps the coordinator monitor and oversee NSS operations being conducted by colleges within the district. By accessing college profiles and related information. The section serves as a centralized view for tracking and managing colleges under the assigned district.

6. Programme Officers

- District Coordinator opens the Programme Officers section.

What to do on this page

- View all Programme Officers in the district.
- Search Programme Officers.

7. Notifications

- District Coordinator opens the Notifications section.

What to do on this page

- View notifications and announcements.
- Check updates related to district activities.
- Review important alerts.

8. Switch to PO View

- District Coordinator selects the "Switch to PO View" option.

What to do on this page

- Access the Programme Officer (PO) view.
- Perform PO-related activities.
- Switch back to District Coordinator View when required.

Flow

The Switch to PO View feature allows the District Coordinator to access the Programme Officer (PO) interface within the NSS Connect without requiring a separate login. This functionality helps the District Coordinator understand and review the features and workflows available to Programme Officers. By switching to PO View, the coordinator can access the PO dashboard, review event management processes, monitor volunteer and Student Leader activities, and understand how NSS operations are managed at the college level. Once the required review or activity is completed, the District Coordinator can switch back to the District Coordinator View and continue district-level monitoring and administration.

Area Coordinator User Manual

1. Appointment & Login Credentials

- Director appoints an Area Coordinator.
- After appointment, login credentials are sent to the coordinator's registered email address.

What to do on this page

- Check the registered email.
- Retrieve the email ID and temporary password.
- Log in to the system using the provided credentials.

Flow

The Area Coordinator account is created and assigned by the Director through the NSS Connect. During the appointment process, the Director enters the coordinator's details and assigns the appropriate area jurisdiction. Once the appointment is completed, the system automatically generates login credentials and sends them to the coordinator's registered email address. The Area Coordinator can then use the provided email ID and temporary password to access the NSS Connect. After successfully logging in, the coordinator gains access to the Area Coordinator dashboard and can begin monitoring NSS activities, colleges, and Programme Officers within the assigned area.

2. Dashboard

- Area Coordinator logs in to the system.
- Area Coordinator is redirected to the Dashboard.

What to do on this page

- View total Programme Officers (POs).
- View total activities.
- View total colleges under the assigned area.

Flow

After successfully logging into the NSS Connect, the Area Coordinator is redirected to the Dashboard, which serves as the central monitoring and management page for all NSS activities within the assigned area. This section helps the Area Coordinator monitor area-level NSS operations and stay informed about ongoing NSS programs and initiatives. The dashboard acts as a centralized hub for accessing various monitoring and management functions available to the Area Coordinator.

3. Activities

- Area Coordinator opens the Activities section.

What to do on this page

- View activities conducted within the assigned area.
- Review activity details.

Flow

The Activities section allows the Area Coordinator to monitor NSS activities being conducted across colleges within the assigned area. When the Area Coordinator opens this section, a list of ongoing and completed activities is displayed. This enables the coordinator to review the nature of activities conducted, track participation levels, and monitor the overall implementation of NSS programs. By reviewing activity details, the Area Coordinator can ensure that colleges are actively participating in NSS initiatives and that activities are being conducted according to the objectives and guidelines of the program.

4. Programme Officers (POs)

- Area Coordinator opens the POs section.

What to do on this page

- View all Programme Officers within the assigned area.

Flow

The Programme Officers (POs) section enables the Area Coordinator to view and monitor all Programme Officers operating within the assigned area. This section provides access to PO information and helps the coordinator oversee NSS activities being managed at the college level. By reviewing Programme Officer details, the Area Coordinator can ensure effective coordination between colleges and the area administration. This section serves as a centralized location for monitoring the Programme Officers responsible for organizing and managing NSS programs across the assigned jurisdiction.

5. Colleges

- Area Coordinator opens the Colleges section.

What to do on this page

- View all colleges within the assigned area.
- Search colleges.

Flow

The Colleges section allows the Area Coordinator to view and monitor all colleges that fall within the assigned area. When this section is opened, a list of colleges is displayed. This helps the Area Coordinator track college participation, review institutional involvement in NSS activities of colleges within the jurisdiction.

6. Jurisdiction Overview

- Area Coordinator opens the Jurisdiction Overview section.

What to do on this page

- View area-wise activity statistics.

Flow

The Jurisdiction Overview section provides the Area Coordinator with a comprehensive view of NSS activities being conducted across all colleges within the assigned area. When the Area Coordinator opens this section, the system displays area-wise statistics and summaries related to colleges, Programme Officers, volunteers, events, and Special Camps. The coordinator can monitor all NSS events organized by colleges under the assigned jurisdiction and review Special Camps conducted by those colleges.

College Programme Officer (PO) User Manual

1. College Registration (Partial Proforma)

- College PO registers the college by filling the Partial Proforma.
- The Partial Proforma is submitted to the Director for review.

What to do on this page

- Enter college details.
- Enter Programme Officer details.
- Submit the Partial Proforma.

Flow

The college registration process begins when the College Programme Officer (PO) accesses the NSS Connect and completes the Partial Proforma. This form captures essential information about the college and the Programme Officer.. After all required details are entered, the Partial Proforma is submitted to the Director for review and approval. The Director verifies the submitted information and, upon approval, login credentials are sent to the registered email address of the College Programme Officer. The PO can then use these credentials to log in to the system and complete the remaining registration requirements.

2. Director Approval

- Director reviews the submitted Partial Proforma.
- If approved, login credentials are sent to the registered email.

What to do on this page

- Wait for Director approval.
- Check email for login credentials.

After Approval

The College PO receives:

- Registered email ID
- Temporary password

Flow

After the College Programme Officer (PO) submits the Partial Proforma, the application is forwarded to the Director for review. The Director verifies the submitted college and

Programme Officer details to ensure that all required information is accurate and complete. If the application meets the necessary requirements, the Director approves the registration request. Upon approval, the system automatically generates login credentials and sends them to the registered email address of the College Programme Officer. These credentials allow the PO to access the NSS Connect and proceed with the completion of the Full Proforma.

3. First Login

- College PO logs in using the email and temporary password received via email.

What to do on this page

- Enter email ID.
- Enter a temporary password.
- Login to the system.

Flow

After receiving the login credentials from the Director via email, the College Programme Officer (PO) can access the NSS Connect for the first time. The PO must use the registered email ID and the temporary password provided in the approval email to log in to the system. Once the credentials are verified After that the Full Proforma must be completed. After that they can redirect to the dashboard

4. Complete Proforma Submission

- After the first login, the College PO must complete the remaining Proforma details.
- Once submitted, full dashboard access is granted.

What to do on this page

- Fill all remaining college information.
- Upload required documents.
- Submit the Complete Proforma.

Flow

After successfully logging into the NSS Connect for the first time, the College Programme Officer (PO) must complete the Full Proforma by providing all remaining college and NSS unit

details. This step is mandatory before gaining full access to the system. The Full Proforma includes comprehensive information about the institution, Programme Officer, volunteer capacity, PO Information. Once all required information is entered and the form is submitted successfully then the College PO can see the dashboard

5. Dashboard

- After completing the Proforma, the College PO can access the dashboard.

What to do on this page

- View Upcoming Events.
- View Pending Approvals.
- View Total Volunteers.
- View Past Attendance.
- View Active NGOs.

Flow

After successfully completing and submitting the Full Proforma, the College Programme Officer (PO) gains full access to the NSS Connect dashboard. From this page, the PO can monitor volunteer registrations, manage events, review attendance records, track NSS activities, and access various administrative functions. The dashboard provides a quick overview of important information and helps the PO efficiently manage day-to-day NSS operations. It also acts as the primary navigation point for accessing all major features available to the College Programme Officer.

6. Upcoming Events

- College PO opens the Upcoming Events section.

What to do on this page

- View upcoming events.
- Check event details.
- Monitor event participation.

Flow

The Upcoming Events section displays all NSS events that have been created and scheduled for the college. When the College Programme Officer (PO) opens this section, a list of upcoming events is presented along with their relevant details. This section allows the PO to monitor event schedules, review event information.

7. Pending Approvals

- Volunteers register using emails added by Student Leaders.
- Volunteer registrations appear in Pending Approvals.

What to do on this page

- Review volunteer details.
- Verify volunteer information.
- Approve volunteer registrations.
- Reject volunteer registrations if required.

Flow

The Pending Approvals section allows the College Programme Officer (PO) to review volunteer registration requests submitted through the NSS Connect. After a Student Leader adds a volunteer's email address to the system, the volunteer can complete the registration process by providing their personal information and required documents. Once the registration is submitted, the request appears in the Pending Approvals section for verification. The College PO reviews the volunteer's details, validates the submitted information and documents, and decides whether to approve or reject the registration. Approved volunteers gain access to the NSS Connect and can begin participating in NSS activities and events.

8. Total Volunteers

- Approved volunteers are listed in the Total Volunteers section.

What to do on this page

- View all approved volunteers.
- Search volunteer records.
- Review volunteer details.

Flow

The Total Volunteers section contains a complete list of all volunteers whose registrations have been approved by the College Programme Officer (PO). Once a volunteer successfully completes the registration process and receives approval, their profile is automatically added to this section. The College PO can use this page to manage and monitor the volunteer, review volunteer information, and keep track of active NSS members within the college. This section serves as a centralized repository for all approved volunteer records and helps the PO maintain accurate volunteer information.

9. Past Attendance

- After an event is completed, attendance records become available.
- Student Leaders mark attendance for volunteers.
- College PO verifies and finalizes attendance.

What to do on this page

- View completed events.
- Review attendance records.
- Verify attendance submitted by Student Leaders.
- Finalize attendance.
- Approve credited volunteer hours.

Flow

The Past Attendance section allows the College Programme Officer (PO) to review and finalize attendance records for completed NSS events. Once an event has been conducted, Student Leaders mark the attendance of participating volunteers and submit the attendance records through the system. These records then become available in the Past Attendance section for verification. The College PO reviews the submitted attendance, validates the participation records, and finalizes the attendance for the event. After finalization, the corresponding NSS hours are credited to the volunteers, and the attendance records become part of the official NSS participation history.

10. Add Student & Volunteer Emails

- College PO adds Student Leader and Volunteer email IDs to the system.

What to do on this page

- Add Student Leader email IDs.
- Add Volunteer email IDs.
- Manage email records.

Flow

The Add Student & Volunteer Emails section allows the College Programme Officer (PO) to manage registration eligibility for Student Leaders and Volunteers. Before a Student Leader or Volunteer can register on the NSS Connect, their email address must first be added to the system by the College PO. Once the email address is added, the respective user can access the registration page and create an account using the same email address. This process ensures that only authorized students are allowed to register and participate in NSS activities. The section also helps the PO maintain a record of all Student Leader and Volunteer email entries within the college NSS unit.

11. Create Event

- College PO creates a college-level NSS event.

What to do on this page

- Enter event details.
- Set event date and time.
- Define event location.
- Publish the event.

Flow

The Create Event section allows the College Programme Officer (PO) to organize and manage college-level NSS activities through the Connect. When the PO creates an event, the event details become visible to Student Leaders and Volunteers through their dashboards. Participants can then view the event information and mark their participation. This feature helps the College PO efficiently plan, schedule, and manage NSS programs while ensuring that all participants are informed about upcoming activities. Proper event creation also enables attendance tracking and volunteer hour crediting after the event is completed.

12. Create Special Camp

- College PO creates a Special Camp for volunteers.

What to do on this page

- Enter camp details.
- Set camp dates.
- Publish the Special Camp.
- Generate undertaking forms

Flow

The Create Special Camp section allows the College Programme Officer (PO) to organize and manage Special Camps for NSS volunteers. A Special Camp is a dedicated NSS activity conducted over a specific period and may include community service programs, awareness campaigns, rural development initiatives, environmental activities, and other NSS-related projects. When the PO creates a Special Camp, the camp details become available to Student Leaders and Volunteers through the NSS Connect. Participants can view the camp information, access the required undertaking forms, and prepare for participation. The system also provides the facility to generate undertaking forms that can be downloaded and signed by students and their parents or guardians before participation.
